SURFACE PATTERN DESIGN

sophiableuedesign.com

Hello,  
I'm Adriana, a surface pattern designer based in Los Angeles, California, and the creator of Sophia Bleue Design.

With a background in graphic design and a passion for patterns, I strive for the right blend of timeless elegance and modern appeal.

I enjoy incorporating natural, organic, and whimsical elements and experimenting with compositions that add a feeling of comfort, sophistication, and flow to any product or setting.

I also have years of experience in retail sales, buying, and merchandising, and I enjoy creating promotional materials for social media to drive sales and increase brand awareness.

Here you'll find some of my recent collections.

If you're interested in licensing existing designs or collaborating on a custom collection, please get in touch. I'd love the opportunity to collaborate and bring your ideas to life!

Thank you for considering me as a design partner.  
I can't wait to embark on a creative journey with you.

TOGETHER,  
WE CAN UNITE  
FUNCTION & DESIGN IN  
PERFECT HARMONY!  
LET'S COLLABORATE!
